SPIRIT PROFILE

HOMESTEADER VODKA

Charlie Spivey started with Easton Porter Group at our winery, Pippin Hill Winery & Farm before moving to Charleston and joining the team at Zero George. We're proud he's followed his dream to make an environmentally friendly spirit and happy to serve Homesteader Vodka.

"We share our vodka with the hope of making Earth a better home. Our project supports generational farmland and with our mill we select what portions of the harvest are worthy of fermenting. Recycling programs reduce emissions and increase sustainability throughout production. Excess emissions are accounted for and offset through certified efforts of land conservation and productive forestry to achieve complete carbon neutrality. From our proprietary still, a premium sixth distillate constitutes the finished vodka.

Homesteader vodka reflects values of environmental stewardship in production so we can enjoy a sustainable spirit as a way, maybe the only way, to drink responsibly."

-Charlie Spivey, Owner
